

sept. 2, 1926.

Bradley is a high type fellow and I feel would prove to be a good witness.

I called at the Prosecutor's office to try to locate and examine the files in the Marshall case and also in the arrests of Eastons in the badger case. Chief Detective James Kirkham who has supervision over all the records is away at present and will not return until Tuesday next. In his absence, there was no one who had authority to furnish any information.

Bradley gave me several leads to follow which may result in favorable information. I will not enumerate them herein, but will carefully check them all and report my findings.

Respectfully submitted:

D.T.
